

About Fieldhouse

Our History

Fieldhouse is a privately owned business founded in 2003 and based in Bellevue, Washington. Fieldhouse's initial entry offered online store solutions for schools and youth organizations. Many new features and services have been added over the years to provide even more value to our clients. Fieldhouse now provides several online fundraising programs that enable organizations to raise money with less time investment than traditional fundraisers and with no financial commitment. Fieldhouse's list of clients has grown to include thousands of schools, teams, leagues, corporations, not-for-profits, church groups, camps and other organizations across the country.

Our Team

The Fieldhouse team is comprised of graphic designers, account managers, marketing specialists, customer service representatives and technology professionals - all working together in a dynamic environment to meet our clients' needs and provide the best possible online experience for our customers.
