About Fieldhouse

Fieldhouse is a privately-owned business based in Bellevue, Washington that began in 2001 as a Sports marketing company. In 2003, Fieldhouse launched its online store solutions for schools, teams, leagues, youth organizations, corporations, not-for-profits, church groups, camps and other organizations across the country. Our main goal was to help the organizations raise money and offer Spirit wear items with no inventory.

Many new features and services were added over the years to provide even more value to our clients. Included were several online fundraising programs that enable organizations to raise money with less time investment and no financial commitment than traditional fundraisers.

Fieldhouse discontinued offering online stores in July 2018 and it is now focused on Marketing and Promotional Services through its own activities and those of its affiliates, [Kudos Community](#) and [Kudos 365](#).

Our Team

The Fieldhouse team is comprised of graphic designers, account managers, marketing specialists, customer service representatives and technology professionals - all working together to meet our clients' needs and provide the best possible experience for our customers and clients.
